OFFICE OF HOMELAND SECURITY AND PREPAREDNESS

Physical and Cybersecurity for Critical Infrastructure (MGT-452)

The New Jersey Office of Homeland Security and Preparedness and the New Jersey Cybersecurity and Communications Integration Cell will sponsor multiple sessions of a one-day training course titled, “Physical and Cybersecurity for Critical Infrastructure (MGT-452). The Texas Engineering Extension Service, a member of the National Domestic Preparedness Consortium, will deliver the course. There is **no-cost** to attend this course.

Description

The national and economic security of the United States depends on the reliable functioning of critical infrastructure. This course encourages collaboration efforts among individuals and organizations responsible for both physical and cybersecurity toward development of integrated risk management strategies that lead to enhanced capabilities necessary for the protection of our Nation’s critical infrastructure. Participants will identify physical and cybersecurity concerns impacting overall infrastructure security posture, examine integrated physical and cybersecurity incidents and the evolving risks and impacts they pose to critical infrastructure, and explore resources that can be applied to improve security within an organization, business, or government entity.

Audience

Managers and employees from all critical infrastructure sectors and subsectors, Federal, State, local, regional, tribal, and territorial government officials, Owners and operators of small businesses and non-profit organizations, Individuals responsible for physical and/or cybersecurity within their organization.
